

# ***2010 Education Program Themes***

## ***Papa Dean's Farm***

***Children will experience animals that are part of our heritage. They may encounter such animals as baby chicks, ducklings, a miniature horse, etc.***

***\*This program is an on-site presentation only\****

## ***The Skin I'm In***

***Students will compare "the skin they're in" and learn why animals are classified as mammals, reptiles, or birds.***

***\*Teacher may request a specific classification for the presentation\****

## ***The Wilds of Louisiana***

***Animals of Louisiana are featured in this program. Students will encounter animals that can be found in the "wilds of Louisiana".***

## ***Home Sweet Habitats***

***Where do beetles live? Can a bearded dragon survive in Alaska? Student will learn about animals as well as where they live.***

***\*Teacher may request a specific habitat for the presentation\****

## ***Bonkers for Bugs!***

***This program will allow students to see our Bodacious new bugs! They may encounter anything from a scorpion to a tarantula!***
